Agenda

City Council

Home

The City of Poquoson operates under the Council-Manager form of government

is eligible to be a candidate for election.

Agenda

The City Council is the policy making body of the City. Its responsibilities include adoption of the City budget; approval of all tax levies; adoption of ordinances; approval of amendments, supplements or repeals to ordinances and the City Code; and appointment of the City Manager, City Clerk, City Attorney and various local boards, commissions and committees.

The Poquoson City Council is composed of seven members who are elected by the voters and serve four-year terms. Elections are held in even numbered years on the first Tuesday in May. Any Poquoson resident who at least 18 years of age, is a United States citizen and a resident of Virginia

City Council meetings are held on the second and the fourth Monday of each month in Council Chambers located at 500 City Hall Avenue and are open to the public. The meetings are televised live on Cable Channel 5, and are rebroadcast on Wednesday, 10 a.m. and Thursday, 7 p.m. following the meeting. During the summer months, Council may meet only once a month.

Agenda items for City Council meetings are determined by the City Council, City Manager, City Clerk and other staff members. Individuals wanting information about the agenda should contact the office of the City Clerk (868-3000).

Representatives

Any individual may address Council on any subject during the "Audience for Visitors" portion of the Council meeting.

E-mail pmoon@ci,poquoson.va.us with questions or comments about this web site.

UTILITIES

Electricity - Supplied and distributed by Virginia Power.

Gas - Supplied and distributed by Virginia Natural Gas.

Solid Waste - The City of Poquoson collects residential solid waste, which is disposed of at the Hampton/NASA Steam Plant. The City also has a very active curbside recycling program with almost 40% of the City's residential solid waste being recycled.

Water - Water service is provided to Poquoson by the City of Newport News, which owns all the water lines and bills Poquoson customers directly.

Sewerage - Collection of wastewater generated in the City is provided through facilities owned and operated by the City of Poquoson.

PEOPLE

The 1994 population for Poquoson is estimated at 11,300 residents and includes roughly 4,000 households. Poquoson residents tend to work in neighboring cities and counties and have a median household income over \$42,000 annually. This is the region's highest and one of the highest income

levels in the Commonwealth of Virginia. Overall Poquoson is a fairly young community with most of its population of working age.

QUALITY OF LIFE...

The City of Poquoson enjoys an excellent quality of life with outstanding community services, housing and recreation.

Police and Fire Protection - City of Poquoson has the lowest crime rate in Hampton Roads. The City Police Department provides 24-hour a day protection and is staffed by 18 full time police officers. The City of Poquoson Fire and Rescue Department, which includes 19 firemen and 40 volunteers, provide fire and Ambulance protection.

Schools - Many regard the Poquoson Public School System as the finest in the Commonwealth with its students earning the highest standardized test scores in the region and over 70% of its graduates moving on to college. The school system includes a primary, elementary, middle and high schools.

Recreation - Many people choose Poquoson in part because of its recreational opportunities. The park system includes three parks and a municipal pool. The Department also sponsors special community events such as the Poquoson Seafood Festival, Child Fest and various charity events. The 84 miles of shoreline make Poquoson a paradise for boaters, anglers and working watermen.

Library - The Poquoson Public Library contains over 20,000 volumes and offers area history materials, audiovisual aids and children's and summer programs. The Poquoson Library has the highest circulation rate in the Hampton Roads region.

Housing - Poquoson provides a wide variety of homes. Large single-family homes are predominant and represent over 90% of the 4,000 dwelling units. Several new subdivisions are currently being planned that will offer interested homeowners with lots from ½ acre to 2 ½ acres. Poquoson is a full service City in the heart of Hampton Roads, but is unique because of its suburban characteristics and small town qualities. The parks, library and schools are centrally located and only a mile or two away from the most remote homes. Poquoson's commercial district is compact, well defined and does not encroach into residential areas.

Messick Point

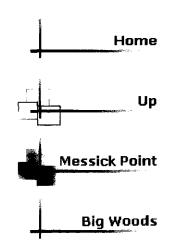

Big Woods

Revised: March 07, 2001.

Development Opportunities

The city owned property at Messick Point is approximately 14 acres located at the end of Messick Road. One of the parcels is approximately two acres in size and has approximately three hundred (300') feet of shoreline along the Front Cove of Back River. These parcels are served by public sewer, water and electric facilities. City staff has been working with the Corps of Engineers on a proposed dredging project for Front Cove, an inlet leading to Back River and the Chesapeake Bay. The proposed channel depth is 6' MLW.

The Messick Point property would be ideal for water dependent retail, instructional, recreational or other uses. The ideal development proposal would be a mixed use development that would take advantage of the site's prime waterfront location; expand market opportunities for surrounding seafood processors and wholesalers; and would significantly broaden Poquoson's tax base.

Revised: July 12, 2000.

Poquoson is a pro-business community with over 500 acres of vacant land zoned for commercial and business development. A large portion of Poquoson's vacant commercial and Research and Development land area is called the "Big Woods". The Big Woods is an undeveloped wooded tract providing over 400 acres of land area ideal for industrial development.

Transportation/Location - The Big Woods has over 2 miles of road frontage along State Route 171 Victory Boulevard leading directly to Interstate 64 which is 4 miles to the west. The overall site is ringed and bisected by existing roadways. These roadways include State Route 172 Wythe Creek Road, which leads directly into the City of Hampton, State Route 782 Cary's Chapel Road south of Victory Boulevard, and East Yorktown Road north of Victory Boulevard. Victory Boulevard is currently a 2-lane roadway; however, the City of Poquoson has 140 feet of existing right-of-way along this corridor and is

working with the Virginia Department of Transportation to widen this roadway to a 4-lane divided highway. Newport News - Williamsburg International Airport provides express mail and freight air cargo services. Newport News - Williamsburg is only 6 miles west of the Big Woods site. Norfolk International Airport also provides daily express mail and freight air cargo services and is only 25 miles south of the Big Woods and can be easily accessed via Interstate 64 within minutes. The Big Woods is adjacent to major employment centers such as Langley Air Force Base, the NASA Complex and several industrial parks.

Water - Water is currently supplied by Newport News Waterworks along the perimeter of the site. Newport News Waterworks has extended a 16" watermain down Victory Boulevard to better serve the interior portions of the Big Woods.

Sewerage - Sewer lines are currently available to the perimeter and parts of the interior portions of the Big Woods site. The City has developed an additional pump station to serve the interior portions.

Topography - The Big Woods area is basically flat with natural topographic elevations varying from six to ten feet. Soils are generally clay types. The area is predominantly heavily wooded with deciduous trees and some small cleared areas.

Surrounding Land Uses - Along the perimeter roads, land is limited to residential and commercial activity. The Big Woods is just outside the City's retail center. This area is predominantly retail; commercial and service oriented business. The existing residential activity is located along the perimeter of the site, particularly along the extreme northern and southern boundaries of the Big Woods.

Zoning - A vast majority of the Big Woods is zoned Business/Commercial/Research and Development and is designed to encourage research and development land uses. This zoning designation includes provisions that would allow a developer to master plan the site to meet its particular development needs.

Land Ownership - The Big Woods is currently owned by a number of people and estates and the parcels vary greatly in size. The City is currently exploring its options to assemble properties to accommodate future land development of the big Woods as a commercial/research and development park.
